

Open a User Documentation Ticket

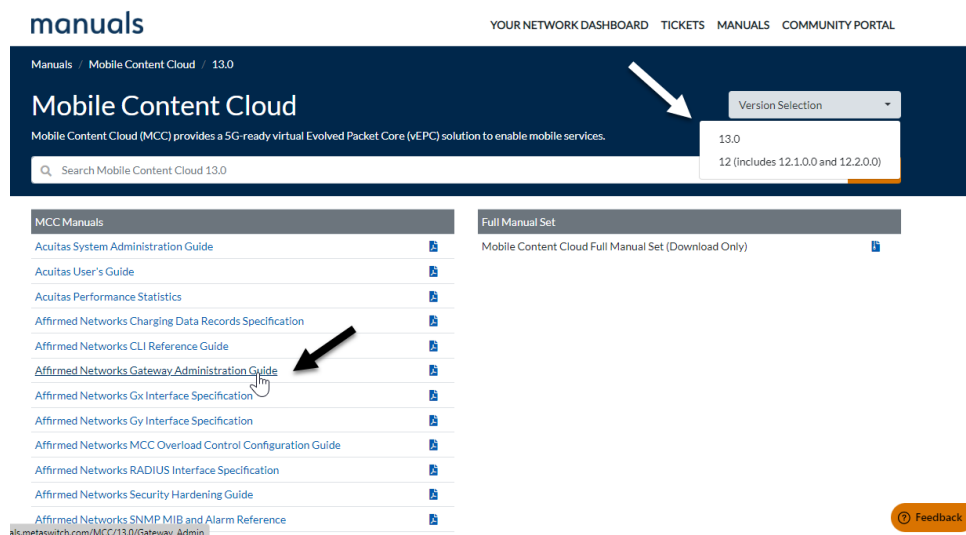

This article describes how to open a ticket requesting corrections or enhancements to MPC/Affirmed user guides published on the [Manuals](#) site. You can open a documentation ticket using either of the following methods:

- Use the **Feedback** widget to comment directly on published content in a user guide on the Manuals site: [Home page - Manuals \(metaswitch.com\)](#)
- Open an internal ticket using the Freshdesk Omnichannel ticketing system: [Helpdesk : METASWITCH](#)

Comment on a User Guide

To comment on a published guide using the **Feedback** widget:

1. On the [Manuals](#) site, select an Affirmed product (for example, **Mobile Content Cloud**), and click the title link to open a user guide:

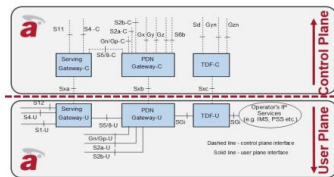

2. To comment on specific content, go to the section in the user guide and click **Feedback**:

Search

Version Selection

CUPS 3GPP - Standalone SGW and PGW

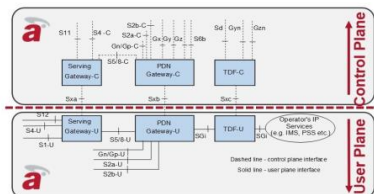

3. The **Welcome to Communities** window opens, with a link to the displayed content in the **Description** field:

Version Selection

CUPS 3GPP - Standalone SGW and PGW shows the CUPS reference model for standalone SGW and PGW in roaming

CUPS 3GPP - Standalone SGW and PGW

CUPS 3GPP - Collocated SGW/PGW (SAEGW) shows the CUPS reference model (3GPP Technical Specification 23.235 and PGW SAEGW (System Architecture Evolution Gateway)).

The system also generates an e-mail notifying you that the ticket has been raised. You receive status updates as the issue is investigated and resolved.

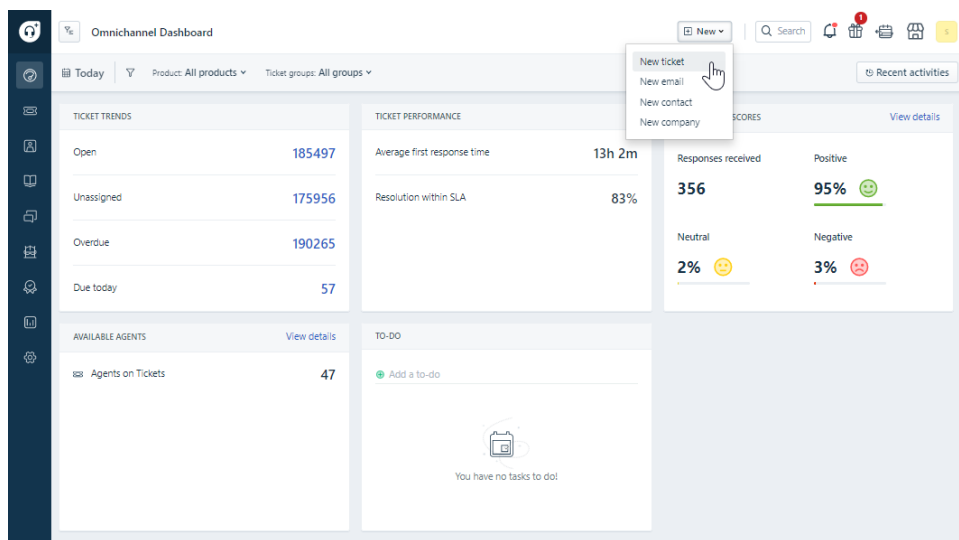

Open a Documentation Ticket Using Freshdesk Omnichannel

If you have access to Freshdesk Omnichannel, you can open an internal ticket at any time to request a documentation correction/change or to report a customer issue.

Note: The **Feedback** widget is preferred for customer use. Customers and external users cannot submit a Documentation ticket using Freshdesk Omnichannel or using the Communities Support ticketing system: [Tickets \(metaswitch.com\)](https://tickets.metaswitch.com).

To open a documentation ticket using Freshdesk Omnichannel:

1. In the [Omnichannel Dashboard](#), select **New > New ticket**. You can also access this menu from any Omnichannel window.

2. The **New Ticket** window opens:

The screenshot shows a 'New ticket' form with the following fields and content:

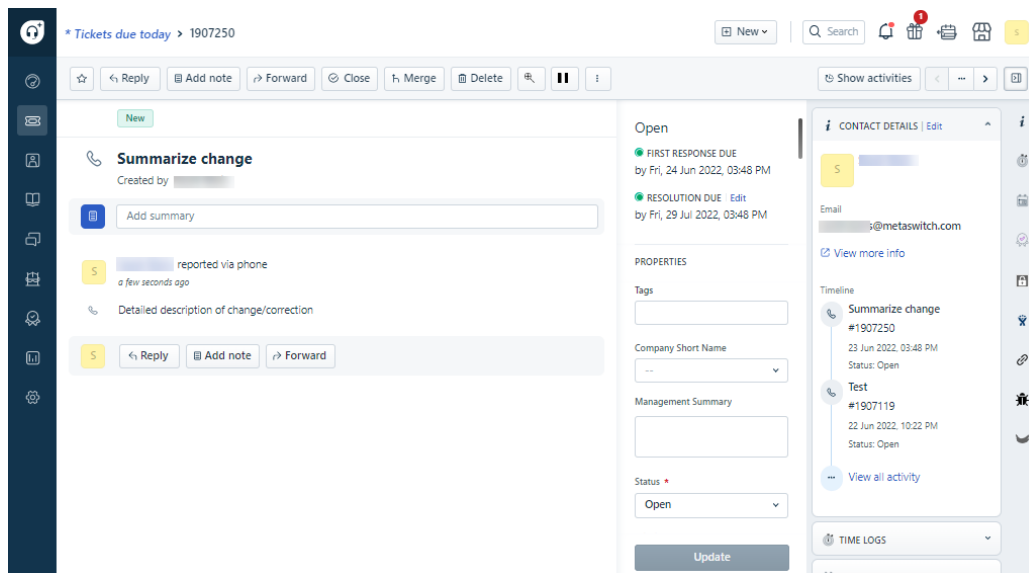

- Contact:** A dropdown menu showing an email address ending in '@metaswitch.com'.
- Company Short Name:** A dropdown menu with a placeholder '---'.
- Subject:** A text field containing 'Summarize change'.
- Description:** A large text area containing 'Detailed description of change/correction'.
- Management Summary:** A text field.
- Status:** A dropdown menu set to 'Open'.
- Buttons:** 'Cancel' and 'Create' buttons at the bottom right.
- Right Sidebar:**
 - TICKET TEMPLATES:** A dropdown menu with 'Pick a template'.
 - CONTACT DETAILS:** A panel showing contact information for 'Test' (#1907119), dated '22 Jun 2022, 10:22 PM', with status 'Open'.

3. In the **New Ticket** window, fill in the following information:

- **Contact** – your email address
- **Subject** – summary
- **Description** – detailed description of requestion correction or change
- **Priority** – select Low (default), Medium, High, or Urgent
- **Group** – Docs
- **Product Family** – Affirmed
- **Type** – Documentation
- **Community type** – Manuals
- **Doc source** – Affirmed Manual
- **Category** – select the Affirmed product

When you are finished, click **Create** to submit the ticket.

4. The system creates a new documentation ticket assigned to the Docs group.

The system also generates an e-mail notifying you that the ticket has been raised. You receive status updates as the issue is investigated and resolved.
